

Josef Matosevic
Executive Vice President, Global Manufacturing Operations
Oshkosh Corporation

Josef (Joe) Matosevic is Executive Vice President, Global Manufacturing Operations, a position which he was appointed in May 2010. Previously, Matosevic was Senior Vice President, Global Operating Systems and Lean Deployment as well as Vice President of Operations for the Defense Segment. He joined Oshkosh Corporation in November 2008 as Vice President of Global Lean Deployment. Matosevic brings 23 years of manufacturing and engineering experience to Oshkosh Corporation. On both the national and international fronts, Matosevic has provided Oshkosh Corporation with 10 years of knowledge in Lean integration, Six Sigma best practices, and variation and metric analysis.

Matosevic came to Oshkosh from BMW/HP Pelzer in Germany where he held positions of increasing responsibility in engineering and manufacturing both domestically and internationally. He transferred to the United States in 1996 to launch new facilities, which supported OEMs in interior and exterior products.

After BMW/HP Pelzer, Matosevic was Vice President of Global Operations for Wynnchurch Capital/Arndoid Industries.

Matosevic holds a Bachelor's Degree in Mechanical Engineering from Wurzburg Tech University in Germany and a Gold Certificate in Organizational Development
