

Colleen Moynihan
Senior Vice President, Quality & Continuous Improvement

Colleen Moynihan joined Oshkosh Corporation as Senior Vice President, Quality & Continuous Improvement in July 2011. Colleen is responsible for establishing the global Oshkosh Quality Management System to raise company-wide quality standards and deliver superior results.

Colleen brings 26 years of quality, manufacturing operations, and engineering experience to Oshkosh Corporation. She came to Oshkosh from Caterpillar Incorporated, one of the world's largest manufacturers of construction and mining equipment. As Director of Global Quality & Manufacturing Engineering at Caterpillar, Colleen unified all business divisions under one Quality Management System and led Manufacturing Engineering implementation of the Caterpillar Production System.

Prior to Caterpillar, Colleen progressed through multiple transformational leadership positions at Ford Motor Company, and was one of the pioneers in the evolution of the Ford Production System. During her last four years, as Global Quality Director of Ford Powertrain, her expertise contributed to Ford's industry-leading quality reputation.

Colleen is certified as a Six Sigma Black Belt. She holds a master's degree in Mechanical Engineering from the University of Michigan, Ann Arbor, and a bachelor's degree in Mechanical Engineering from the State University of New York at Stony Brook.
